DETAILED ACTION

1. Claims 1 and 14 have been amended.
2. Claims 5 and 16 have been cancelled.
3. Claims 1-4, 6-15, and 17 are pending.

Response to Arguments

4. Applicant's arguments filed on 29 December 2004 have been fully considered and they are persuasive.

Allowable Subject Matter

5. **Claims 1-4,6-15, and 17 are allowed.**
6. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method for protecting access to microcontroller memory blocks. Each independent claim identifies the uniquely distinct feature **"denying the access request in the event the access request is unauthorized, wherein the security rule comprises one of a plurality of security levels assigned to the block of memory, the security levels corresponding to ability of the processor to read or write to the block of memory"**. The closest prior art, Feng et al. (US Patent No. 6,339,815) disclose a microcontroller system that only includes allocation circuitry that provides the capability to selectively allocate and/or hide portions of a program memory address space, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.
7. Therefore, **claims 1,9,14, and the respective dependent claims 2-4,6-8,10-13, 15, and 17** are in condition for allowance.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
